

Master's Program Creation Application

First: General Program Information	
College	Department
Date of the program's creation	University Council Resolution No
Scientific Degree Title	
Program Teaching Language	
Second: Code of specialization in the Saudi Standard Classification of Educational Levels and Disciplines 2020 -2019	
Wide Field	
Narrow Filed	
Detailed field	
Name of specialty	
Specializations covered by the definition	

University Council seal

Third: program: Content

Introduction

Instructions: (Includes details on the college and department, the number of master's program alums, and the department's scientific research specialties)

.....

.....

.....

.....

• The Program's Significance and Reason for Development:

1.
2.
3.
4.
5.
6.

• Beneficiaries of the Program

1.
2.
3.

• Employment Opportunities Available

1.
2.
3.

• Degree requirements

☑ Courses and Thesis Choice

o The student must successfully complete each instructional component from the program courses, including any required graduation projects.

2 The Program Target Group

Male ☐

Female ☐

Both ☐

2 Study Schedule

.....

2 Teaching Unit Cost

.....

• Program Tracks: (if any)

1.

2.

3.

4.

5.

2 The Program General Structure

.....

2 Options for Courses

o The needed number of units is as follows: a teaching unit plus any compulsory research projects.

.....

Types of Courses Offered	Number of Courses offered	Required Quantity of Units
Compulsory Courses		(.....) a Teaching Unit
Elective Courses (if any)		(.....) a Teaching Unit
Thesis	(1)	(6) Teaching Units
Total	(.....)	(.....) a Teaching Unit + (6) Teaching Units

- Note: The following should be considered when developing the overall framework of the program:
The number of teaching units is not fewer than (30) teaching units, and may or may not contain a research project (no more than 3 teaching units).

Study Plans for the Program•

First Academic Year						
First Semester						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		
Second Semester						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		
Third Semester						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		

The student selects one or more (.....) of the following from the list of Elective Courses:

Second Academic Year						
First Year						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		
Second Semester						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		
Third Semester						
Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		
Number of Study Weeks				10 Weeks		

Prerequisite	Number of Teaching Units			Course Name	Course Number and Code	No
	Credit	Practical	Theory			
						1
						2
Teaching Units (.....)				Total		

Note: The following considerations should be taken when developing the study plan:

- 1. Thesis Preparation Proposal.** The preparation course is part of the academic level that comes after the student has completed (50%) of the study plan courses, and it is one academic unit long.
- Choose the following technique for categorizing educational activities and instructional units.

The type of activity used in the Load Calculation	Identify the Activity Type	Technique for Calculating Load
The theoretical lecture	Lecture / Exercises / Studio	Contact hour = load hour
Practical or Field Training lesson	Practical / Project	2 contact hours = 1 hour of load
Field Training or Clinical Training (Clinic)	Clinic / Field Training	3 contact hours = 1 hour of load
External Training When an organization that is not connected to the student's college does the activity and it is not necessary for teaching staff to have outside training, it is referred to as a practical, project, field, or clinic activity.	Training	Group Load= 1
Supervision	Thesis	Group Load= 1

Credit	Practical	Theory		
Number of Teaching Units				
Credit	Practical	Theory		
Number of Teaching Units				
Credit	Practical	Theory		

Instructions: Bear the following in mind when describing courses:

1. Describe the course's objectives in no more than (five) lines. .
2. Creating an outline for the courses (writing a research proposal), thesis, and research project. .

The Rate of Continuity among the Department's Faculty Members

Notes	Rate of Continuity			Job Status				Number of Faculty Members				Scientific Rank	
	Non-stable	relatively Stable	Stable	Extend Service	Assistant	Second ed	Still Working	Total	Non-Saudi		Saudi		
									Female	Male	Female		Male
													Professor
													Associate Professor
													Assistant Professor

Expected enrollment figures over the following five years

Academic Year
