

Postgraduate Program Arbitration Form

First: General Program Information	
College	Department:
Program Name	
Program Study Style	
Second: Arbitrator's Information	
Name	
Scientific Rank	
Employer	
general specialty	
Specialization	
Country	
E-mail	
Mobile	
Please provide the external arbitrator's resume and a copy of their national identification, place of residence, or passport.	

Third: Program Content Arbitration

Elements	Opinion			Note/Proposed Modification
	Unsuitable	Needs to be Modified	Appropriate	
The planned program's title and its substance are both accurate.				
The program's proposed structure complies with market demands and labor market needs.				
The planned program is on par in level with its equivalents at overseas universities.				
The program has scientific updates that improve the field to which it is related.				
The program's aims fit with how it operates.				
The particular program mission and the program objectives are in line.				

Third: Program Content Arbitration

Elements	Opinion			Note/Proposed Modification
	Unsuitable	Needs to be Modified	Appropriate	
Clear and quantifiable program outcomes are produced.				
For the award of the degree, the criteria are adequate.				
The program's planned entrance standards are sufficient to draw the top candidates.				
If there are any program tracks, they (if any) deal with current scientific advancements in the program's intended field.				
The tracks included in the curriculum (if any) are compatible with the department's planned specialty.				
The needed fundamental knowledge value for the program is achieved in part via the required courses.				

Third: Program Content Arbitration

Elements	Opinion			Note/Proposed Modification
	Unsuitable	Needs to be Modified	Appropriate	
Practical, clinical, or training teaching units assist and enhance the program's applied, professional, and skillful component.				
If available, optional courses enhance students' cognitive abilities and enrich the program's necessary courses.				
The course explanations correctly translate the scientific data.				
The program is expected to give graduates the knowledge and professional growth they require.				
The subjects of the program's courses are closely related to the job description for its graduates.				

Third: Program Content Arbitration

Elements	Opinion			Note/Proposed Modification
	Unsuitable	Needs to be Modified	Appropriate	
Its continued availability is ensured by the number of instructors who specialize in the curriculum.				
With the necessary equipment and materials, the program may be executed and maintained.				

Fourth: The Arbitrator's General Assessment of the Program

Arbitrator's Recommendation

☐

Program Acceptance

☐

Acceptance of the Program with Proposed Modifications

☐

Not Accepting the Program

Arbitration Approval
